

Dear colleagues!

*We invite you to take part in the scientific seminar
on the occasion of the celebration of the 25th anniversary of the International
Scientific Journal "Physics of Semiconductors, Quantum Electronics and
Optoelectronics" (SPQEO)*

Date: **December 21, 2023**

The seminar starts at **11:00 a.m**

Venue: **room 227 (second floor) of the V.Lashkaryov Institute of Semiconductor Physics of the National Academy of Sciences of Ukraine, 41 Nauky Avenue, Kyiv and online.**

Participation is free, please register at journal@journal-spqeo.org.ua or petrosmertenko@gmail.com (registration form is attached).

The seminar will feature a report on the 25th anniversary of the journal, a discussion of the current state of the journal and the challenges facing the scientific publication.

The journal **Semiconductor Physics, Quantum Electronics and Optoelectronics (SPQEO)** was founded in 1998. It became one of the first English-language scientific journals in the field of semiconductor physics, quantum electronics and optoelectronics in Ukraine. SPQEO has opened up new opportunities for communication, presentation of research results around the world, and young scientists entering the global information space. SPQEO's research areas are focused on modern advances in semiconductor physics, nano- and heterostructures, linear and nonlinear optics, quantum electronics, optoelectronics, and sensors.
